

How to embed a google spreadsheet into a Joomla item:

- Create your spreadsheet in google docs.
- Go to File

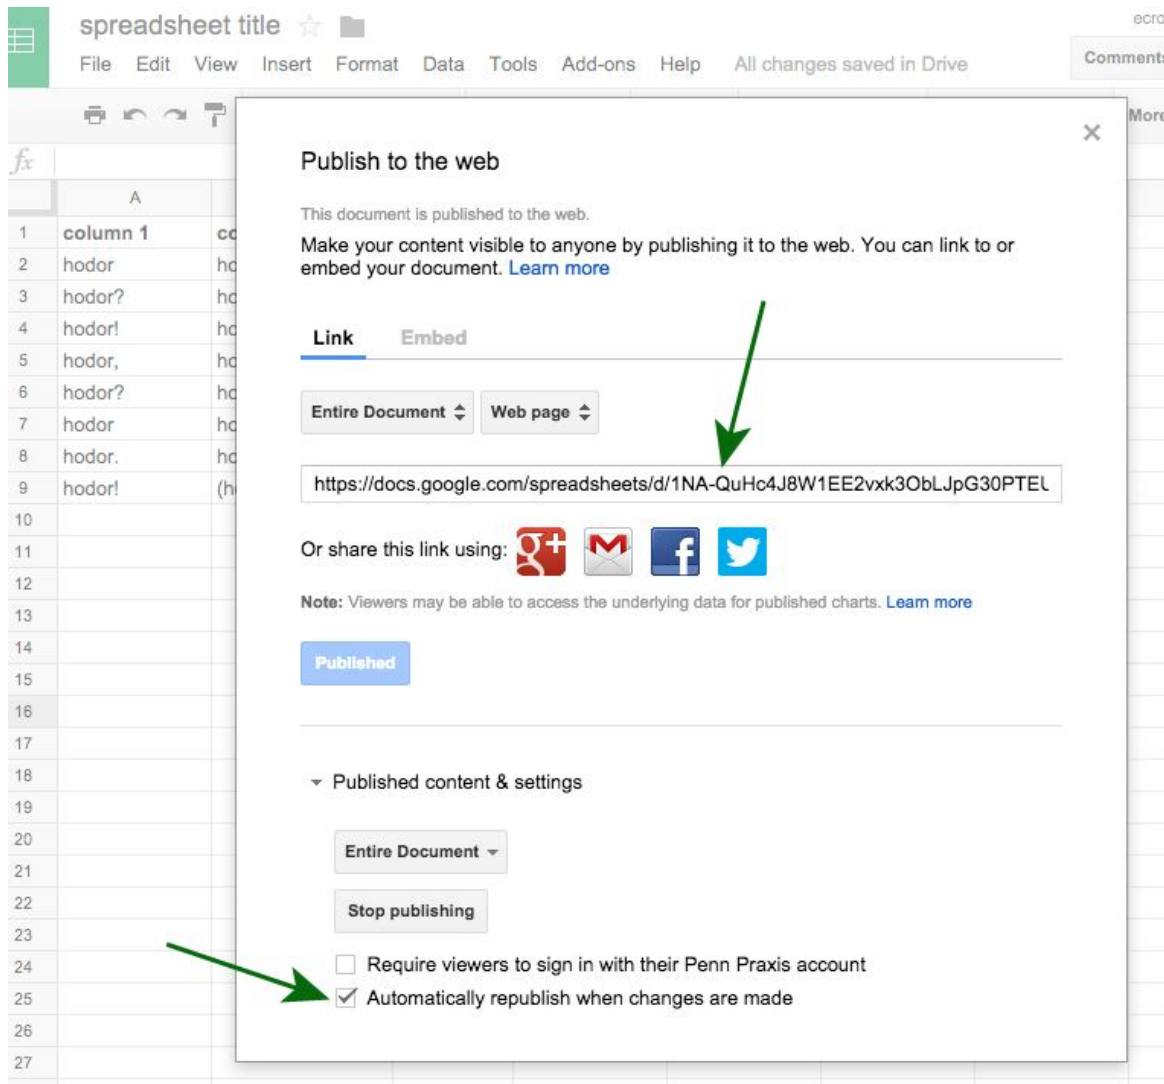

- Select 'Publish to the web'

-

- Copy the url from the center of the screen, where the arrow is.
  - Also, make sure the box is checked at the bottom that says 'Automatically republish when changes are made'

- Here is what the url looks like:  
<https://docs.google.com/spreadsheets/d/1NA-QuHc4J8W1EE2vxk3ObLJpG30PTEUx5aJp3R-zjbM/pubhtml>
  - the part that is most important is what comes between d/ ... and /pub
  - in this example, that's this: *1NA-QuHc4J8W1EE2vxk3ObLJpG30PTEUx5aJp3R-zjbM*
- **This is the template for embedding a google spreadsheet:**
  - {gdoc\_chart title="title of chart" gdoc\_id="put the long alpha-numeric string here, shown above" search="false" sort\_headers="hide" source="enter a source for the data as needed here" }{/gdoc\_chart}
- Using the previous example, here is what that code would look like:
  - {gdoc\_chart title="spreadsheet title" gdoc\_id="1NA-QuHc4J8W1EE2vxk3ObLJpG30PTEUx5aJp3R-zjbM" search="false" sort\_headers="hide" source="whatever whatever" }{/gdoc\_chart}

- 
-

- Now you have the code to paste into your Joomla item, like this:

Title Overline

Hide Date and Title
☒ Yes
